

MYRON B. THOMPSON ACADEMY

Asbestos Policy

The Myron B. Thompson Academy's Asbestos Policy has been created:

- to prevent exposure to the hazards associated with asbestos-containing materials;
- to promote awareness of the hazards of asbestos-containing materials; and
- to implement the School's Management Plan and Procedures through training of staff by providing information on asbestos and implementing an effective asbestos-containing materials management plan so that appropriate measures, such as monitoring, encapsulation, sealing, labeling, inspection or removal of the material are undertaken;
- to review the School's Asbestos Policy, Asbestos Management Plan and Procedures annually.
