

### Sick/Injured Child Procedure

Should a child become ill or injured during school hours while on campus, the supervising teacher/staff will contact the parent immediately (using the parent's preferred emergency cell number). The child will be detained in the main office until that time that parent is able to retrieve him/her.

Should a child become seriously ill or injured during school hours while on campus, the supervising teacher/staff will contact the parent (using the parent's preferred emergency cell number) and an MBTA administrator immediately and await instructions on possible transport of the child by ambulance to the nearest medical facility. If a parent cannot be reached, an MBTA administrator will make the decision in the best interest of the child's health and safety.
