STUDENT CONDUCT

Student Conduct and Discipline

Myron B. Thompson Academy believes that all students have the right to an education in a safe and orderly school environment. Order and discipline are essential for optimum instruction and learning. The frequency and severity of disruptive student behavior online and in person adversely affects the quality of teaching and learning. The incidence of disruptive student behavior (i.e. flaming, unnecessary debate, insubordination, etc.) can be significantly reduced when teachers and administrators value and use practices which are most likely to help students learn to take responsibility for their behavior and when teachers, administrators, and parents/guardians share information about a student's unique individual needs. Disruptive behavior, as used in this policy, includes any student conduct that significantly interferes with the learning of other students in school. When classroom disruption does occur, appropriate action must be promptly taken by the principal or designee in accordance with relevant departmental regulations, administrative rules, and state and federal laws which protect the rights of all students. Disciplinary action options may include but are not limited to conference with student, detention, conference with parent/guardian, counseling, suspension, or expulsion. The principal or designee can approve suspensions or crisis removals of one to ten school days.

For more detailed information, please refer to Hawaii Administrative Rules Chapter 19.

Intervention/Referral Process for Student Misconduct

1. Verbal reminder from teacher or appropriate staff regarding disruptive behavior online or in person.
2. Conference with counselor, teacher(s), student, and parent/guardian(s).
3. Conference with administration, teacher (s), student, and parent/guardian(s).
4. In alignment with Chapter 19, suspension from school may be enforced. The suspension will be based on the severity of the offense and will be dealt with on a case-by-case basis. The school team (administrator, counselor, and teachers) will conduct an investigation and an incident report will be filed. A parent conference will be conducted prior to the suspension to inform parents of the school's decision.

****** If a student is suspended from one to ten days (total), the school will ensure that the student is disengaged from his/her course work. Once the suspension is complete, the student will be allowed access to his/her courses. The student is responsible to complete and submit work missed during the suspension. Teachers will accept the late work and implement their late work policy.

*** *** Suspensions exceeding ten days (total) must be approved by the complex area superintendent (CAS). After ten days, Myron B. Thompson Academy will ensure that these students are provided with access to their courses. Work missed during the first ten days will be accepted and teachers will implement their late work policy.

For more detailed information regarding the student conduct policy, please visit our website at www.ethompson.org.

HAWAII ADMINISTRATIVE RULES CHAPTER 19

Students at Myron B. Thompson Academy are subject to Hawaii Administrative Rules, Chapter 19, which governs issues related to student misconduct. This includes bullying, harassment and cyberbullying. It is important for students and parents to review this information to understand Chapter 19 violations and associated consequences.

CURRICULUM AND INSTRUCTION

Online Curriculum

The learning environment is blended, encompassing both virtual and face-to-face interactions. Students attend virtual sessions hosted by their instructors, read content and submit course work online, and participate in small group direct instruction at the facility (virtual students who cannot come into the school).

Communication is via email, instant messaging, telephone, and face-to-face meetings. Current courses are provided through the Canvas learning management system.

Mandatory Virtual Class and Math/Science Lab Attendance (revised 8/16)

Thompson Academy has instituted some changes that directly affect students and their achievement this school year. These changes involve mandatory student attendance and participation for the following:

- Face-to-Face Science and math labs for 7th grade, 8th grade, Algebra I, Geometry, Algebra 2, Precalculus, AP Calculus, Physical Science, Biology, Chemistry, and Physics. This is for Oahu students; neighbor island students are handled individually. (Schedules have been provided to students by their individual teachers as well as listed within each course).
- Virtual Class sessions for ALL CORE courses. (Schedules been provided to students by their individual teachers as well as listed within each CORE course).

Students will be graded on face-to-face and virtual class participation, not mere attendance. (This includes assessments, discussions, group labs, lab reports, etc.) Adobe Connect records exactly when you log into and out of virtual class.

Also, please check the PLAN or specific course calendar in each course weekly to see what is actually due and what you should be working on. Do not rely on the general Canvas calendar as it contains final due dates only.

Virtual Class- Parent Expectations

To maintain a positive, productive learning environment and assure confidentiality for students and teachers during virtual class, all parents/guardians are asked to follow the following privacy guidelines.

- Virtual classes are designed for students only. To prevent disruptions to the learning environment, parents/guardians are not allowed to actively participate or interrupt the virtual class sessions.
- Privacy is a concern for students and families. To prevent a violation of students' rights, no one in the virtual class is to video record, audio record, take photographs/screenshots, live stream, or transmit in any other way any part of a virtual class, including posting on any social media platform.
- Privacy also includes confidential or personally identifiable information related to students participating during a virtual class. Such information is to not be collected, discussed nor shared.
- Virtual classes are designed for students and teachers to communicate in a focused group setting. Parents/guardians should not engage with their child during virtual class.

- Questions about virtual class should be directed via e-mail to your child's teacher.

Parents/guardians should email your child's principal with any questions or concerns regarding privacy or virtual classroom expectations.

Academic Honesty Policy (revised 2/23)

Myron B. Thompson Academy strives to develop academically competent and ethical students. All work submitted must be the student's own work. If other resources are used, the student is required to cite sources. Cheating, plagiarism and other academic dishonesty are clearly a violation of the school's policy.

Cheating: (revised 2/24)

- Having someone else complete a portion of your assignments; this includes using the words and/or ideas of fellow students, parents, guardians, tutors, friends.
- Giving or receiving information about quizzes or exams outside the classroom.
- Sharing your work/answers with others.
- Taking someone else's work and passing it off as your own.

Plagiarism: (This is a school wide policy; not an individual course policy)

- Having someone else complete a portion of your assignments.
- Direct copying from any book, text and/or website without the proper citation.
- Paraphrasing an author's work, without the proper citation.
- Using a paraphrasing or AI site to complete work.

If a teacher detects wording in any of your work that does not appear to be your own, the teacher may check various Web search engines and library databases for the wording in question. If portions of your wording are found to be copied from other sources without proper attribution, the resulting classroom sanctions include:

First Offense:

- Student will be given the opportunity, whenever possible, to rewrite and correct plagiarized material or re-cite sources. Counselor and parents/guardians will be notified at the very beginning and throughout the process.

Second Offense:

- Student will receive an automatic failing grade for plagiarized assignments. No opportunity for resubmissions. Parent and counselor will be notified.

RECOMMENDED TESTING FOR COLLEGE PREP

Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT)

Taking the PSAT/NMSQT in 10th grade and again in 11th grade gives students a fresh skills assessment and a measure of their progress, as well as the chance to compete for scholarships. Historically, U.S. students who took the PSAT/NMSQT in 10th and 11th grades scored higher on the SAT than students who did not.

National Merit Scholarship Corporation (NMSC) uses the PSAT/NMSQT as an initial screen of candidates for National Merit Scholarship Program, an academic competition for recognition and scholarships.

- Firsthand practice with SAT
- Administered in October.
Counselors recommend that all 10th and 11th grade students participate.

NATIONAL HONOR SOCIETY (NHS) & NATIONAL JUNIOR HONOR SOCIETY (NJHS)

Selection Process

The National Honor Society and National Junior Honor Society chapters of Myron B. Thompson Academy are duly chartered and affiliated chapters of these prestigious national organizations. Membership is open to those students who meet the required standards in four or five areas of evaluation: scholarship, leadership, service, citizenship (NJHS), and character. Standards for selection are established by the national office of NHS and NJHS and have been revised to meet our local chapter needs. Students are selected to be members by a five- member Faculty Council, appointed by the principal, which bestows this honor upon qualified students on behalf of the faculty of our school each year.

Eighth graders are eligible for membership in NJHS and 10th, 11th, and 12th graders are eligible for membership in NHS. For the scholarship criterion, a student must have a cumulative GPA of 3.0 or better on a 4.0 scale. Those students who meet this criterion are invited to complete a Student Activity Form that provides the Faculty Council with information regarding the candidate's leadership and service. A history of leadership experiences is required., Participation in school or community service is also required with a minimum requirement of 10 hours of documented community service verified by a supervisor.

To evaluate a candidate's character, the Faculty Council uses two forms of input. First, school disciplinary records are reviewed. Second, members of the faculty may be solicited for input regarding their professional reflections on a candidate's service activities, character, citizenship, and leadership. These forms and the Student Activity Information Forms are carefully reviewed by the Faculty Council to determine membership. A majority vote of the Council is necessary for selection. Candidates are notified regarding selection or non-selection according to a predetermined schedule.

Following notification, a formal induction ceremony is held to recognize all the newly selected members. Once inducted, new members are required to maintain the same level of performance (or better) in all criteria that led to their selection. This obligation includes regular attendance at monthly chapter meetings held virtually during the school year and participation in chapter service projects.
