

COMMUNICATION POLICY

Myron B. Thompson Academy strives to keep the lines of communication open in several ways, including governing board meetings, school website, videoconferencing, online meetings, and electronic mail.

Our primary communication goal is to use technology to the maximum extent possible to enhance the educational opportunities and experience for students, while reducing operational costs to the school. Electronic mail and the school website are applications of technology used to provide a variety of information to parents and the general school community.

It is the responsibility of the parent to provide accurate and updated electronic mail addresses to the school which is then entered into the school's student information system.
